<b>Advanced</b>	Israel and the Conflict	30h	Tue	18:00-20:30	1100 NIS

# SHALOM IVRIT

## READY TO START LEARNING HEBREW?

TINAU's introductory course to Hebrew teaches the basics of the language to complete beginners (as well as those who have mastered a few words already!) The course covers basic reading and writing, the present tense and basic Hebrew grammar.

By the end of the course, you'll have learned the vocabulary you need for day-to-day interactions such as small talk questions, numbers, colours, food, family and more. Students will also get acquainted with the TINAU style of teaching which includes experiencing their new language through songs, games, DIY activities, movement or cooking!

# NAVIGATING TLV

## WANT TO NAVIGATE DAY-TO-DAY LIFE IN HEBREW?

In TINAU's Beginner Plus course, we'll aim to talk as much Hebrew as we can, in different places and with different people! During our lessons, you'll expand your Hebrew knowledge by playing games, singing songs and exploring Tel Aviv through occasional trips outside of the classroom.

We'll cover how to talk about times of the day or holidays, study prepositions, learn the past tense and practice your Hebrew reading and writing. But we won't overwork the grammar exercises- to speak is to learn and to learn is to speak! So bring a pen, a notebook and an open mind :)

THIS IS NOT AN ULPAN

# THIS IS AN ULPAN

## FANCY IMPROVING YOUR HEBREW WHILST THINKING OUTSIDE OF THE BOX?

TINAU's Intermediate Hebrew course explores past and current developments in Israel's political, social and cultural landscape. This intermediate-level course is perfect for you if you have a solid foundation in the language but you aren't yet ready to move on to an advanced course.

In this course students will be exposed to increasingly complex materials, by introducing these slowly we aim in every lesson to build your confidence and equip you with the tools to access public discourse on relevant issues within Israel. The course will cover the future tense, complex prepositions and help to expand speaking, reading and writing skills.

# HEBREW ANARCHIST LAB

## READY TO TAKE YOUR HEBREW TO THE NEXT LEVEL?

The Anarchist Hebrew Lab allows students the opportunity to build and shape their own learning by working together with classmates and with the teacher to create a curriculum which is adapted to them. This intermediate-level course is perfect for you if you have a solid foundation in the Hebrew language but you aren't yet ready to move on to an advanced course. The course will cover the future tense, complex prepositions and help to expand speaking, reading and writing skills.

The course fluidity helps students to tailor what and how they learn. In turn, helping them to ensure their needs, motivations and passions are met within it

# ENVIRONMENTAL ACTIVISM

**READY TO TALK ABOUT THE MOST CRITICAL  
ISSUE OF THE MODERN-DAY WORLD?**

TINAU'S Environmental Activism course focuses on the overall worldwide issue of climate change by breaking down and highlighting the many aspects that contribute to it. Expect to discuss the melting of the poles, the rise in sea level, the destruction of natural habitats and mass pollution of the ocean. We will also look at how Israel is, and, will be affected by climate change such as the drying of the Dead Sea.

The course will focus on our individual habits, accessing what more we can all do to help. This powerful and sometimes painful course will see your Hebrew level rise in issues that really matter and leave you feeling inspired to instigate change.

Please note this is a conversation course, but you should be able to read and write in Hebrew to follow the class.

# ISRAEL AND THE CONFLICT

**WANT TO LEARN HOW ISRAEL HAS  
BEEN SHAPED BY THE CONFLICT?**

In this conversation-based course, students can expect to learn further the history of the conflict between Israelis and Palestinians. The course will cover the situation prior to 1948 - including the settler movement, Israel's early years, the occupation of 1967 and attitudes to Palestinian issues within these times. We will look to the modern-day and how the conflict affects and impacts those who live here in their everyday lives. The course will allow us to discuss the ways our understanding of the conflict has changed over time.

This course will not provide a narrative of the conflict itself (if such a thing is even possible) but it will give us a further understanding regarding the many ways the national conflict has created life here as we know it.

Please note this is a conversation course, but you should be able to read and write in Hebrew to follow the class.

# HOW WE TEACH

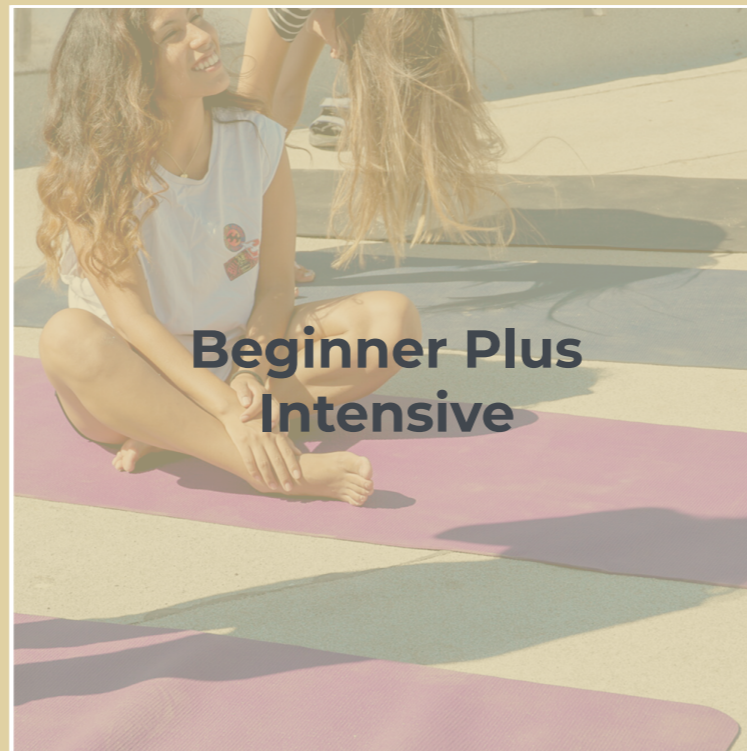

The goal of our classes is to equip you with the tools to handle everyday life in Hebrew or Arabic. This also includes leaving the classroom sometimes to go to the Shuk together or tour through Tel Aviv- Yafo.

Thanks to a variety of activities (games, singing, movement, or cooking), our classes are extra interactive and engaging, designed to encourage our students to start speaking from the first class onwards. This way, we build your confidence in the classroom to engage with your surroundings in Hebrew or Arabic.
